

The 32nd Chuncheon Puppet Festival recruits participants for 『Chuncheon Puppet Film festival』

Performing arts is in a difficult situation due to COVID-19 in 2020. We tried to hold the festival this year by conducting disinfection, physical distancing and decentralized opening shows outdoors. However, performing artists and the audience couldn't meet on stage after all, because of the resurgence of the virus in South Korea.

This led us to have 『Puppetry Film Festival』 overcoming "untact situation" with the audience. Chuncheon Puppet Festival pursues a new form of puppetry shows taking advantage of puppetry performances' visual artistic value.

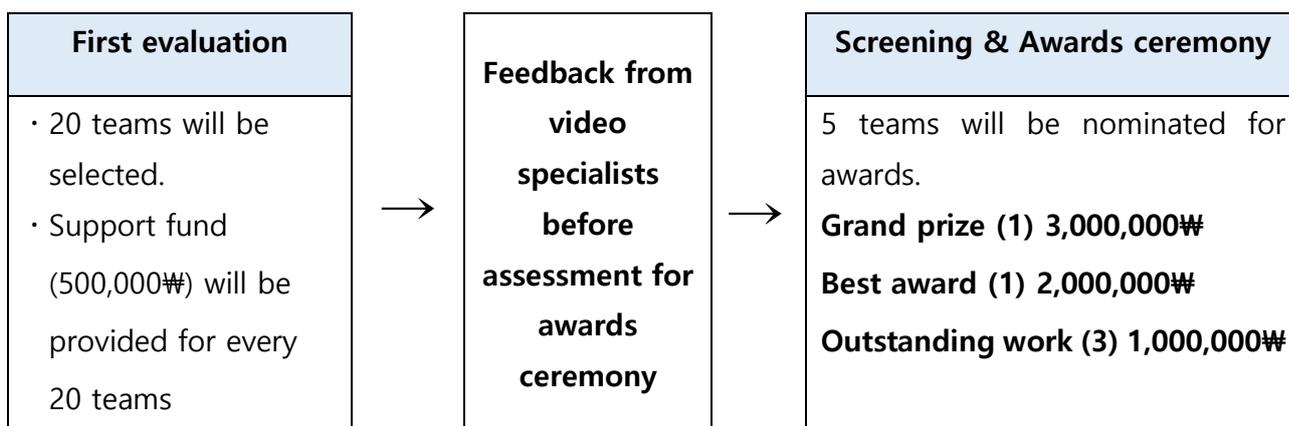

Furthermore, this will be an opportunity to have a platform that expands the theatrical arts to the area of visual arts for Korean puppetry industry.
